

16 × 32 dot matrix units

LUM-5123MU300 / LUM-5123MU301

The LUM-5123MU series are 16 × 32 dot matrix displays which can be used in a wide range of applications, including alphabet, numeric, symbol and graphical displays. A large display can be easily created by arranging a number of these dot matrix displays in an array, and they can be applied to a variety of display purposes. A custom controller has display data memory for two screens, and data for each screen can be written and displayed in turn.

●Applications

Light source for displays

●Features

- 1) 16 × 32 dot matrix
Circular emitters 3 mm in diameter.
