# LED displays

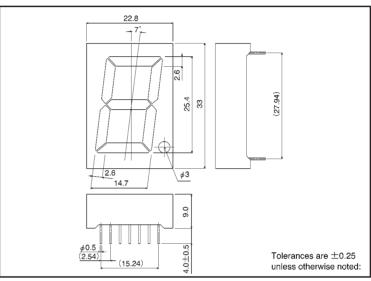

# High efficiency, single-digit numerical displays LA-101 DN Series

The LA-101 DN series are LED numerical displays designed to allow use even in bright locations. The height of the character is 25.4 mm and the color is bright red. These displays are designed for use in large numerical displays.

### Features

- 1) Height of character : 25.4 mm.
- 2) Dimensions : 22.8  $\times$  33  $\times$  9 mm.
- A common anode configuration and a common cathode configuration are available.
- The package surface is painted black and the segments are milky white.
- 5) High luminance, clear display.
